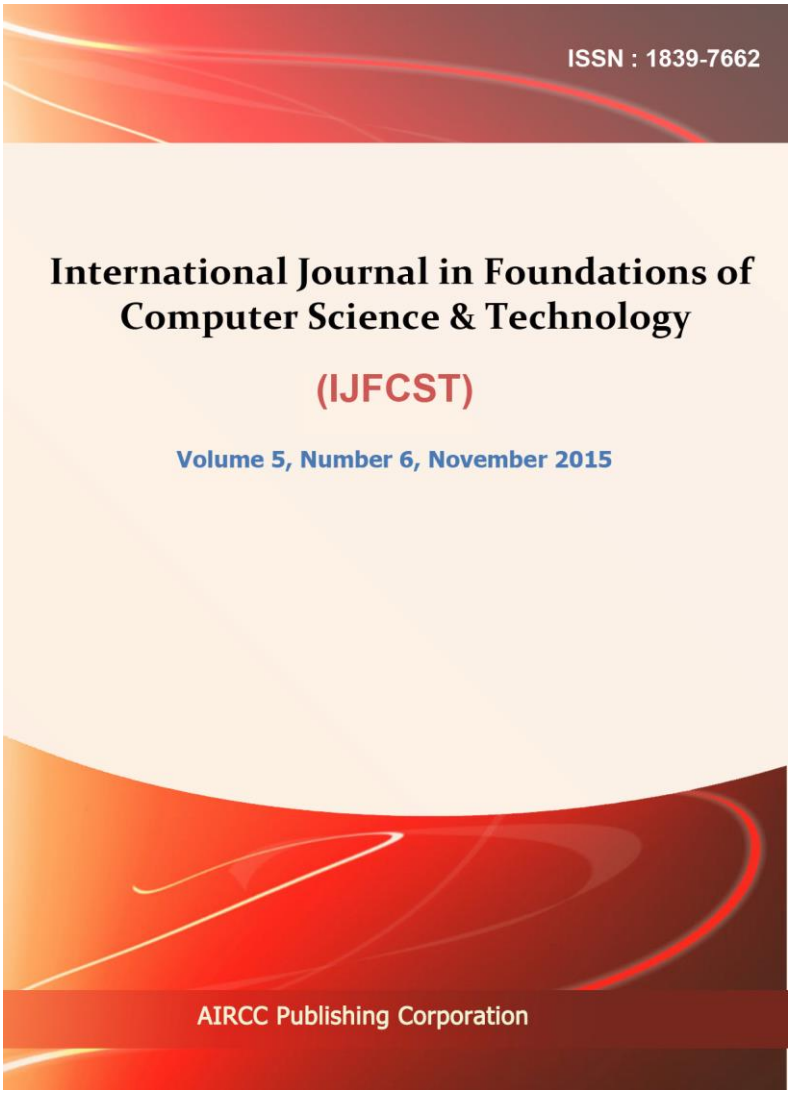
International Journal in Foundations of Computer Science & Technology (IJFCST)

ISSN: 1839-7662



SCOPE OF THE JOURNAL

Over the last decade, there has been an explosion in the field of computer science to solve various problems from mathematics to engineering. This journal aims to provide a platform for exchanging ideas in new emerging trends that needs more focus and exposure and will attempt to publish proposals that strengthen our goals. Topics of interest include, but are not limited to the following

Topics of interest include, but are not limited to, the following

- Algorithms
- Automata and Formal Languages
- Novel Data structures
- Combinatorial Games
- Computational Complexity
- Programming Languages
- Computational Number Theory
- Cryptography
- Database Theory
- Queuing Methods
- Distributed & High Performance Computing
- Computer Security
- Program Semantics and Logic
- Probabilistic Methods
- Computation Biology
- Internet & Cloud Computing
- Software Engineering
- Artificial Intelligence
- Biochemistry
- Astrophysics
- Geometric Modeling, Graphics and Visualization
- Other Emerging applications

Paper Submission & Manuscript preparation Guide

Paper Submission

Authors are invited to Submit papers for this journal through **Email:** ijfcstjournal@wireilla.com or through Submission System. Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal. For paper format download the template in this page

Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1.Accept
2.Accept with monitor changes
3.Weak with major changes
4.Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.
