SCOPE OF THE JOURNAL

International Journal of Web & Semantic Technology (IJWesT) is a quarterly open access peer-reviewed journal that provides excellent international forum for sharing knowledge and results in theory, methodology and applications of web & semantic technology. The growth of the World-Wide Web today is simply phenomenal. It continues to grow rapidly and new technologies, applications are being developed to support end users modern life. Semantic Technologies are designed to extend the capabilities of information on the Web and enterprise databases to be networked in meaningful ways. Semantic web is emerging as a core discipline in the field of Computer Science & Engineering from distributed computing, web engineering, databases, social networks, Multimedia, information systems, artificial intelligence, natural language processing, soft computing, and human-computer interaction. The adoption of standards like XML, Resource Description Framework and Web Ontology Language serve as foundation technologies to advancing the adoption of semantic technologies.

Topics of interest within the scope of this issue include, but are not limited to, the following areas:

Authors are solicited to contribute to the conference by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the following areas, but are not limited to

<ul style="list-style-type: none">• Semantic Query & Search• Semantic Advertising and Marketing• Linked Data, Taxonomies• Collaboration and Social Networks• Semantic Web and Web 2.0/AJAX, Web 3.0• Semantic Case Studies• Ontologies (creation , merging, linking and reconciliation)• Semantic Integration, Rules• Data Integration and Mashups• Unstructured Information• Developing Semantic Applications• Semantics for Enterprise Information Management (EIM)• Knowledge Engineering and Management• Semantic SOA (Service Oriented Architectures)• Database Technologies for the Semantic Web• Semantic Web for e-Business, Governance and e-Learning• Internet and Web-based Applications and Services	<ul style="list-style-type: none">• Semantic Brokering, Semantic Interoperability, Semantic Web Mining• Semantic Web Services (service description, discovery, invocation, composition)• Semantic Web Inference Schemes• Semantic Web Trust, Privacy, Security and Intellectual Property Rights• Information discovery and retrieval in semantic web• Web services foundation, Architectures and frameworks• Web languages & Web service applications• Web Services-driven Business Process Management• Collaborative systems Techniques• Communication, Multimedia applications using web services• Virtualization• Federated Identity Management Systems• Interoperability and Standards• Social and Legal Aspect of Internet Computing

Paper Submission & Manuscript preparation Guide

Authors are invited to submit papers for this journal through E-mail ijwestjournal@yahoo.com or ijwestjournal@airccse.org. Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal. For paper format download the template in this page

[Manuscript Template](#)

Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. Weak Accept with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.

Special Issue Proposal

IJWEST invite proposals for special issues on topics that fall within the scope of this journal. Please email your proposal ijwestjournal@yahoo.com (or) ijwestjournal@airccse.org

Copy Right from

After submitting final manuscript, you can get copy right form from AIRCC secretary
